COMPANY PROFILE

Shenzhen SICA O Electric Appliances Co.,Ltd (hereinafter referred to as SICA O) was established in 2005 , is a modern enterprise integrating R&D, manufacturing and sales of home appliances. After nearly 20 years of steady development, SICA O has built a complete industrial chain covering R&D lab, manufacturing base, sales center and after-sales service center.

SAICA O has been keeping the leading edge in dry aging, wine storage and cigar storage technology, and has become the industry benchmark. Over the years, our maturing cabinets, wine cabinets and cigar cabinets have been in the top market share in China and have achieved excellent results in the international market, exporting to more than 70 countries and regions. From "Made in China" to "Wisdom made in china", SICA O has won the recognition and choice of customers with its excellent products and services.

We have always paid great attention to innovation, and many industry-leading technical inventions and

cited designs are from SICA O, all products listed have passed CE, EMC, UL, CB, GS, ROHS and other certifications.

In 2008, in order to meet the higher-end market demand, SICA O launched a professional custom service, the customers served include wine merchants, cigar merchants, real estate developers, star hotels, clubs, high-end restaurants, villa owners, etc. The wine cabinets, wine cellars, cigar cabinets, cigar cellars custom projects delivered have exceeded 3,000, including many customers from Europe, America, Australia and Southeast Asia.

Looking to the future, SICA O will continue to uphold the mission of "treasuring for love", continuously explore professional cellar technology, determined to create a better life with good products, always stay focused, and march forward towards the dream of a hundred-year enterprise.

Our Brand

SICA O was founded in 2005, and its founder, Mr. Miao Ke, is a young entrepreneur with ideals, whose biggest dream in life is to make "SICA O" a world-renowned brand.

The logo of "SICA O" is very simple in design, with soft and rigid strokes and a dynamic forward shape, just like its Chinese name, full of vitality, implying the good wish of "walking towards the new, leading the trend".

new, leading the trend".

Brand Mission: To treasure for love.

Brand vision: to be the global leader of professional mature cabinet, wine cabinet and cigar cabinet industry.

Honors

- China's first professional wine cabinet, cigar cabinet and matured cabinet brand
- The most influential wine cabinet brand in China
- The most competitive brand in China's wine cabinet industry
- China's national high-tech enterprise
- Leading wine cabinet sales in China for 19 consecutive years
- More than 200+ patents
- Marketed in 100+ countries and regions
- More than 2000+ international star hotels designated cooperation brand
- Serving more than 3000+ listed companies

Product innovation history

Global marketing

SICAO's products have crossed the seas and oceans and entered the homes of more than 1 million customers worldwide, becoming an indispensable part of their daily lives and making life more attractive.

Our global distribution network is constantly being improved, so that consumers can receive professional local service, whether for purchasing guidance or after-sales support.

DRY AGING REFRIGERATOR

As early as the 18th century, people discovered that after placing fresh garden beef at room temperature for several days or weeks, the meat will become softer and more tender, and the taste will be richer and fuller when eaten. (Thousand Styles) The changes brought about by maturity.

Relying on years of technical accumulation, SICAO took the lead in launching Yu-style aging cabinets in China after two years of research and development. Equipped with an intelligent temperature and humidity control system, you only need to operate it simply, and leave the rest

to time. The beef will slowly bloom with a complex and charming flavor.

Up to now, SICAO dry aging cabinets have been exported to 35 countries including the United States, Canada, Germany, Australia, Japan, and South Africa, and have entered more than 100 cities in China, helping many restaurants to make high-quality dry aging beef, allowing more Many people enjoy the ultimate delicacy gifted by time

Technology storage helps you easily make dry-aged steaks

Precise control of temperature and humidity

Accurate and stable temperature and humidity control system to create a professional beef dry aging environment.

High quality air purification

Double evaporator + double air duct system, 24-hour circulating forced air 1.3-3.2m/s wind speed, the air in the cabinet is fresh for a long time.

UVC powerful sterilization

Ultraviolet rays with a spectral wavelength of 254nm are ideal and safe, The bactericidal band can effectively inhibit the growth of bacteria.

Ultra-low meat loss

Tightly lock the moisture of beef, during the aging process, the meat quality will be lost far below the industry average.

Delicacies are worth waiting for with all your heart

Smart Aging technology, easy to cook a variety of ingredients

Equipped with the unique Smart Aging system, it is easy to cook a variety of ingredients with just a few simple operations, it is easy to cook a variety of ingredients and inspire more delicious than imagination.

Livestock

Poultry

Fish

Sausage

Ham

Cheese

Time magic,
achieve the ultimate
deliciousness

DRY AGED REFRIGERATOR

After more than a year of dedicated research and development, SICAO launches the smarter and more humanized Smart Aging system, bringing consumers an unprecedented experience.

Understanding the ultimate pursuit of ingredients by gourmets, we continue to explore more cutting-edge aging technology, inserting the wings of modern science and technology into the ancient culinary culture, so that the dry aging ingredients that amaze the taste buds can be

obtained without leaving home, and unique flavors can be cooked easily.

The wide door frame is more dignified and atmospheric, and through the clear Low-E glass, the ingredients that have been brewed for a long time are mouth-watering.

One-touch setup makes cooking ingredients so easy

Through the LCD touch screen, without complicated operation, you can quickly set the optimal aging environment for livestock, poultry, fish, sausage, ham, cheese and other ingredients, and the values can be seen in real time at the touch of a button, making dry aged food easier and more relaxed.

WINE & BEVERAGE COOLER

SICAO's mission is to provide a full range of care for wine.

Wine needs time to settle in order to live up to the efforts of the winemaker and to achieve the perfect drinking taste. To achieve this, it is necessary to provide the right storage environment for the wine. Constant temperature, appropriate humidity, UV protection, shock and noise reduction, air circulation and even the correct way to arrange the bottle are all essential for wine storage.

All the systems are developed by experienced experts who know wine well. The quality and design of the products have made the SICAO brand famous in China and recognized by users from different countries.

It is our honor to keep a precious bottle of wine in SICAO wine cabinet for decades, and this is the value we pay for it for years and years.

Crafted cellars that know your wine better than you do

Many of the high quality features of contemporary wine cabinets originate from SICAO and many are still patented by SICAO. We are committed to the concept of excellence, constantly overcoming technical barriers and creating quality wine coolers.

Stalbe air-cooled frost-free system

Unlike the traditional direct cooling system, SICAO's unique Stalbe air-cooled frost-free system adopts the American Parker fin evaporator to deliver cold air to every corner of the wine cabinet in a 360-degree forced circulation, minimizing the temperature difference inside the cabinet and ensuring that every bottle of wine gets even temperature care.

Every bottle of wine has a wonderful journey of life. We firmly believe that only wine cabinets that are truly considered for wine can have lasting vitality. It is also because of the spirit of craftsmanship that we have been adhering to for a long time, we can

Devote ourselves to research, constantly pushing out new ideas and bringing one good wine cabinet after another to our customers, so that they can enjoy a high-quality wine life.

SICAO

Collection for love

WINE & BEVERAGE COOLER

Both inside and outside of the SICAO new dynasty wine cooler ice bar integrated machine, fashionable and elegant, can match a variety of styles of space, with a minimalist aesthetic decorate your life.

2 ~ 22°C wide range of temperature control, multi-temperature fine storage, easy to deal with a variety of wine, whiskey, soft drinks, coffee, tea, health care products, snacks classified storage, to avoid, like the refrigerator, a variety of ingredients and wine, drinks in the same room, mutual crosstalk.

Most of the models are designed with front air outlet window, which is suitable to be embedded in the cabinet, so you don't need to worry about the heat dissipation problem and help you use the home space more reasonably and keep it neat and beautiful.

Wine storage and freshness, zoning fine storage leading quality life

Independent dual temperature and dual control, wine cooler and beverage bar in one.

Half of the professional wine storage, half of the daily freshness. Thermostatic cellar technology, giving precious products all-around careful care and long-lasting perfect flavor.

Intelligent escort, worry-free use more comfortable

Power failure memory

Embedded memory chip, no need to worry about accidental power failure, with its own power failure memory function, will automatically restore the original set temperature after restarting the power.

Over-temperature alarm

When the actual temperature is higher or lower than the set temperature limit, the alarm will automatically remind you, giving you a more relaxed.

Four seasons constant temperature

The built-in warp heater can automatically adjust the temperature according to the change of ambient temperature to maintain a suitable storage temperature at all times.

CIGAR CABINET

Cigars must be maintained in a suitable environment in order to maintain the original flavor and gradually mature until they reach their peak state.

SICA O, as a pioneer in the field of cigar lockers in China, has rich and mature experience in the industry. We understand the secret of making a cigar shine, and with our high level of technology, we create excellent cigar cabinets for cigar smokers to enjoy every moment of their time.

So far, SICA O cigar cabinets have been exported to Europe, America, the Middle East, Australia, East Asia and other regions, and are well received by cigar smokers worldwide.

Technology for Cigar Cultivation, Enjoying Smart Life

Cuba, with its unique natural moisturizing tank climate and red soil rich in various minerals, cultivates cigar tobacco with rich flavors, and its concentration and layering, which makes countless cigar smokers dream.

From the moment a fine cigar is rolled, it embarks on a new journey. Only with the best care can it reach its peak of life.

SICA O cigar lockers replicate the natural climate of Cuba with Smart Aging technology, which precisely balances humidity and temperature, giving cigars a warm and delicate nourishment and a unique flavor charm.

The main effects of temperature and humidity on cigars

• High temperature

Fermentation of cigars is accelerated, and they are prone to insects and tastes.

• Humidity is too high

Cigars are susceptible to mold and insects.

• Low temperature

Cigar fermentation basically stops and the aging effect is greatly reduced.

• Humidity is too low

Cigars are dry and even cracked, losing flavor.

Precision Constant Humidity System

Heat pipe inverter constant temperature technology

Negative ion air purification

Custom Wine Cabinets

Selected high-quality steel custom wine cabinet, no trace of precision processing, elegant style does not show itself. Through the tempered glass cabinet door, a wide range of wine collection can be seen, opening a unique new visual and taste experience.

"1+N" type flexible assembly, whale swallowing large capacity, grand and practical. More than a wine cabinet, but also a piece of home art.

CUSTOMIZED SERIES

In 2008, SICAO launched the customization service for wine cabinets, wine cellars, cigar cabinets, cigar rooms and dry aging cabinets, creating a brand new industry in China.

Over the past ten years, we have delivered more than 3,000 custom projects, mainly in major core cities in China, and the number of customers from Europe, America, Australia, Southeast Asia and other regions is increasing day by day.

Our designers and engineers are well versed in wine storage and cigar maintenance, and know that every bottle of wine and every cigar is hard to come by.

Therefore, we treat each piece of work like a work of art, combining professional wine storage and cigar keeping techniques with space aesthetics design, and constantly refining our skills, and our outstanding performance is widely recognized by our clients.

Intelligent cellar technology, leading wine cabinet custom benchmark

Brand strength guarantee

10 years + industry experience, professional and reliable.

Original custom design

Senior designer, unique craftsmanship.

Air quality air purification

360° circulation ventilation, keep the air fresh for a long time.

Intelligent cellar technology

Precise temperature and humidity control system, leading the technical benchmark.

Selection of high-quality materials

Eliminate jerry-built materials, the quality is as one.

Exquisite production process

The slightest detail, and strive for perfect presentation.

Custom Dry Aging Cabinet

Known as the "noble steak" dry-aged steak, has always been highly respected by diners. This is because dry-aged beef, whether tender, flavor or juiciness will be significantly enhanced, the unique taste is worthy of the ceiling of steak, even steak gourmets can not stop.

The production of dry-aged beef not only requires harsh environmental conditions, but also has a very high rate of meat loss, and only a very few high-end restaurants will use the true dry-aged method.

SICAO has been researching for several years, and the dry-aged technology has become more and more mature, and has customized dry-aged cabinets for many shopping malls and high-end restaurants.

Cigar Cabinet Customization

The artistic fusion of furniture and home appliances, presenting you not only a cigar cabinet, but also a piece of art. We select the finest woods and use exquisite craftsmanship to create a "mini mansion" for cigars, and play the most beautiful chapter that belongs to cigar connoisseurs, and use "double 70" technology to make every piece of heavenly gift.

Cigar Room Customization

The independent cigar room is the ideal place for every cigar smoker, with professional temperature and humidity conditions, giving the cigars a full range of care and nourishment. We use the artistic creativity of cigar culture, complemented by cellar-grade humidification and constant temperature technology, to create a cigar room for cigar smokers to enjoy an unparalleled time.
